

Grades 4–5 · Perimeter — rectangles
Printable from k5genie.com

Worksheet 40 · Perimeter — rectangles

Use your printed sheet for coloring or “which shape...” tasks when those apply. Here you enter each numeric answer as a whole number.

<p>#1</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>	<p>#2</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>
<p>#3</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>	<p>#4</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>
<p>#5</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>	<p>#6</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>
<p>#7</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>	<p>#8</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>
<p>#9</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>	<p>#10</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>
<p>#11</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>	<p>#12</p>  <p>Perimeter = $2 \times (\text{length} + \text{width})$. Type your answer in cm.</p> <p>Perimeter = <input type="text"/> cm</p>
