

Grades 4–5 · Volume — cubes & boxes
Printable from k5genie.com

Worksheet 42 · Volume — cubes & boxes

Use your printed sheet for coloring or “which shape...” tasks when those apply. Here you enter each numeric answer as a whole number.

<p>#1</p>  <p>$3 \times 3 \times 3$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>	<p>#2</p>  <p>$6 \times 4 \times 5$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>
<p>#3</p>  <p>$2 \times 8 \times 3$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>	<p>#4</p>  <p>$9 \times 9 \times 2$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>
<p>#5</p>  <p>$4 \times 4 \times 4$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>	<p>#6</p>  <p>$7 \times 3 \times 4$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>
<p>#7</p>  <p>$5 \times 5 \times 5$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>	<p>#8</p>  <p>$10 \times 6 \times 2$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>
<p>#9</p>  <p>$8 \times 2 \times 7$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>	<p>#10</p>  <p>$4 \times 6 \times 3$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>
<p>#11</p>  <p>$11 \times 2 \times 3$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>	<p>#12</p>  <p>$6 \times 5 \times 4$ units</p> <p>Volume = length \times width \times height. Use cubic units.</p> <p>Volume = <input type="text"/> cubic units</p>
